

BUG REPORT

1. Automated testing

Defect ID: Scenario 2

Reporter Name: Eltton Araujo

Defect Reported Date: 04/09/2020

Who Detected: System test

How Detected: Run Script

Project Name: Liferay

Release/Build Version: 1.0

Defect/Enhancement: Defect

Environment: Elementary OS 5/ Firefox Quantum

Status: New

Description: The purpose of the test is to verify the system's response when the text fields contains only numbers. Also, check the system response when the date field is in the future.

Steps to reproduce: All steps in Scenario 2 in test plan.

URL: <https://forms.liferay.com/web/forms/shared/-/form/122548>

Expected Result: According to the test plan, the system should block the submission of the form. And show an error message in all fields.

Actual Result: The system allows the form to be sent.

Defect Close Date: .

BUG REPORT

2 Manual

Defect ID: Manual 1

Reporter Name: Eltton Araujo

Defect Reported Date: 04/09/2020

Who Detected: System test

How Detected: Exploratory Testing

Project Name: Liferay

Release/Build Version: 1.0

Defect/Enhancement: Enhancement

Environment: Elementary OS 5/ Firefox Quantum

Status: New

Description: The purpose of the test is to check the system's response when the text fields contain only one character.

Steps to reproduce:

Given user is on page

And party rock text is visible

When name field filled in by the user with only one characters

And why field filled in by the user with only one characters

And birthday field filled in by the user with valid date

And press submit button

Then Required field message is displayed to birthday field

And Required field message is displayed to name field

And Required field message is displayed to why field

URL: <https://forms.liferay.com/web/forms/shared/-/form/122548>

Expected Result: The form will be most useful if the texts field contains the minimum of characters to be accepted.

Actual Result: The system allows the form to be sent.
